

## **Galore Creek Mining Corporation**

### **Geological Field Technician**

Located in northwestern British Columbia, Galore Creek is one of the world's largest undeveloped porphyry copper-gold-silver deposits. Galore Creek Mining Corporation (GCMC), a partnership between Newmont Mining Corporation and Teck Resources Limited, is committed to improving the project economics and advancing the asset towards development. Working closely with the Tahltan Nation and other local communities, we strive for excellence in all our activities, with continuous improvement and responsible practices that contribute to sustainable development.

More information on the project is available at [www.gcmc.ca](http://www.gcmc.ca).

### **REPORTING**

Reporting to the Senior Project Geologist or Project Geologist, the Geological Field Technician will perform their duties as a member of the GCMC team. They are primarily accountable for assisting the Exploration Geologist with geological mapping and geochemical sampling by assisting with planning, and executing safe and effective field traverses. This position is focused on early-stage exploration target generation in a porphyry copper-gold environment.

### **OVERVIEW**

We are currently seeking individuals for the role of Geological Field Technician for the 2019 field season at Galore Creek. This position is based out of the Galore Creek Uhtlān Exploration fly-in access camp in northwestern BC and work is on a rotational basis (20 days in, 10 days out).

The successful candidate would ideally have a start date of early May 2019. This position is a defined term position and employment with GCMC is expected to be from early May to October 31, 2019.

### **KEY RESPONSIBILITIES:**

- Be a courageous safety leader, leading by example and fostering a proactive safety and sustainability culture based on the common values of health, safety, environment, and communities shared by the asset owners (Teck and Newmont).
- Actively seek opportunities to recognize health and safety hazards, resolve safety issues and work to mitigate associated risks in the workplace.
- Work collaboratively, sharing information and knowledge with the project team.
- Assist with the planning and execution of safe field traverses. Assist the Exploration Geologist as needed with the collection of geochemical, lithological, structural, and mineralogical data.
- Collect a variety of sample types (rock, soil, and stream sediments for analytical, petrographic, and geochronological purposes). Assist with organization of samples, and sample batch shipment to the laboratory using industry and project QA/QC protocol.
- Assist with sample data entry and organization, including GPS data.
- Communicate with supervisor on a regular basis and report all material exploration results on a timely basis.

#### **KEY COMPETENCIES, KNOWLEDGE AND EXPERIENCE:**

- Currently enrolled in or recent graduate of a Geological Sciences, Geological Engineering or equivalent program. Relevant field or academic project work is an asset.
- Porphyry and epithermal related deposit experience is an asset.
- Previous field experience as a geological or mapping assistant, and familiarity with ArcGIS software is an asset.
- Comfortable working and traversing in mountainous terrain and various weather conditions, including working all day outside. Comfortable hiking with a field pack. Previous mountaineering or outdoor leadership experience is an asset.
- Previous experience working with helicopter-supported field programs and ability to navigate using a GPS, compass and map is an asset.
- Strong computer skills are required with experience in Microsoft Word and Excel.
- A broad knowledge of geological, geophysical, and geochemical exploration techniques in porphyry and epithermal environments is an asset.
- Experience working in a diverse and multicultural environment. Ability to liaise with contractors and all persons on site and with all members of the team in a respectful and professional manner.
- Excellent communication skills, both verbal and written.
- Ability to work as an effective project team member.
- Valid Class 5 Driver's license is an asset.

#### **HOW TO APPLY**

Interested candidates should email their resume and cover letter to [careers@gcmc.ca](mailto:careers@gcmc.ca).

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.
